Dear Class of '55,

I am most grateful and honored to be a proud recipient of the class of '55 study fund. This fund certainly helped in enriching my experience regarding field research in the Bahamas. In the Bahamas, I learnt a lot about combining experimental/laboratory work with fieldwork. These two unique approaches to scientific thinking have certainly contributed to developing a research foundation relevant to scientific investigation.

I am most grateful to the Class of '55 for helping me expand my educational horizons and aspirations by funding my off-campus study in the Bahamas. I attach a picture of me snorkeling in the Bahamas as a token of gratitude. To the Class of '55, I again say a big THANK YOU!

Sincerely,
Emmanuel Koli
